References letter

Tulonga Hidipo

Huelva, September 12, 2019

TO WHOM IT MAY CONCERN

In my capacity as Associate Professor of Forest Engineering at University of Huelva (Spain), I have had the pleasure of having Mr. Tulonga Hidipo as a mobility student, staying in our University from the beginning of September 2018 to the end of January 2019. He developed his "Work Integrated Learning Report" under my supervision and that of Prof. Mrs. Cristina Pérez-Carral and Prof. Mrs. Eva Corral; this report is entitled "*Detecting Normalized Difference Vegetation Index (NDVI) and Canopy Cover changes in the San Bartolome de la Torre of the Huelva Province*". It was carried on by the following steps:

- Field trip to understand the type of Mediterranean forests existing in Huelva and the crown cover parameter. Choice of study area.
- Search and download of Sentinel (satellite) images and aerial orthophotos.
- Processing of satellite images for several remote sensing indexes.
- Processing of orthophotos for crown cover estimation.
- Results analysis and conclusions.

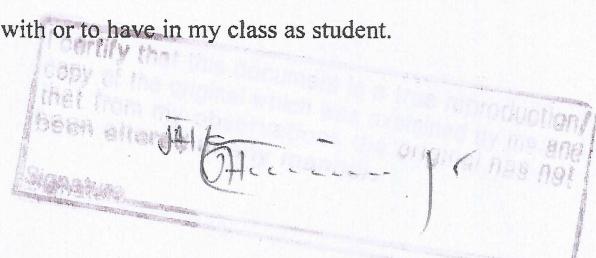

The work was supervised by a weekly presentation of achievements and setting up of aims for next week. Mr. Hidipo showed commitment to his work and set priorities correctly; he demonstrated an integrated and analytical way of thinking, showing proactivity on pointing out new goals for the progress of the work, and efficiency on its achievement.

In my opinion, this person is better than average in most aspects. He is intelligent, curious, sociable, and able to work either independently or as part of a team. He is honest, respectful, and disciplined; he will adapt easily to different situations.

Thus, I recommend Mr. Hidipo as somebody I would like to work with or to have in my class as student.

RE: RECOMMENDATION LETTER FOR TULONGA M T HIDIPO

To Whom It May Concern,

It is with great pleasure that I write this letter of recommendation for Mr. Tulonga Megameno Tobias Hidipo who has been a student in the Department of Geo-Spatial Sciences and Technology. Mr. Hidipo completed 'Bachelor of Geo-Information Technology (GITB)' programme and we had the honour to have Mr. Hidipo as a student in our department. He is one of our graduates in the year 2019 and he attained above average grades.

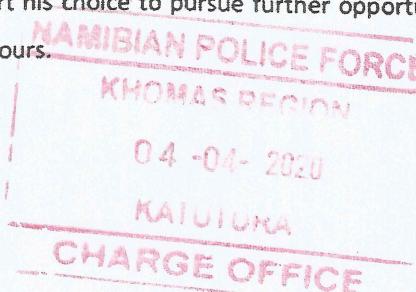

I have experienced Mr. Hidipo as a very open-minded, culturally interested and integrative person who also positively contributed to the good team spirit within our Department of Geo-Spatial Sciences and Technology. He was a hard-working, independent and very dedicated student. His very good technical and cartographic performance as well as his confidence in application of advanced GIS technologies positively supported a variety of extra-curricular GIS-related activities within our section. It is due to his diligent qualities that he was selected for Erasmus + exchange programme to attend a semester abroad in University of Huelva, Spain in 2018. Furthermore, Mr. Hidipo demonstrated his research skills with his graduating project titled 'Detecting NDVI and Canopy Cover Changes in the San Bartolome de la Torre of the Huelva Province' achieving a merit in the Work Integrated Learning module.

I therefore strongly support his choice to pursue further opportunities and wish him full of success for his future professional endeavours.

Yours faithfully

Kaleb G. Negussie

(Section Head: Geo-Information Technology)
